BUNDLE EXCLUSIVE: STARTER PACK

ISO 27001 Auditor Checklist

Annex A control mapping for the Azure Zero-Trust Starter Pack (Acmebot, Hub & Spoke, Firewall)

cloud infrastructure engineering

HOW TO USE THIS SHEET

Hand this to your auditor or compliance lead alongside the deployed Terraform state. Each row maps a deployed resource to the Annex A control it satisfies. Check it off once you've confirmed the resource is live and configured as documented in the module README.

	Module	Control	Annex A	Terraform Resource
☐	ACMEBOT	Private network isolation for cert issuance	A.8.22	`azurerm_private_endpoint` + VNet Integration
☐	ACMEBOT	Automatic DNS resolution, no manual records	A.8.20	`azurerm_private_dns_zone`
☐	ACMEBOT	Least-privilege identity for cert renewal	A.5.15	`azurerm_user_assigned_identity` + RBAC
☐	HUB & SPOKE	Network segmentation, Hub/Spoke isolation	A.8.22	`azurerm_virtual_network` peering + NSG
☐	HUB & SPOKE	Default-deny baseline on all Spoke subnets	A.8.20	`azurerm_network_security_rule` priority 4096
☐	HUB & SPOKE	Centralized Private DNS (Blob, SQL, KV, ACR)	A.8.20	`azurerm_private_dns_zone_virtual_network_link`
☐	HUB & SPOKE	Policy-managed resources don't drift on apply	A.5.36	`lifecycle { ignore_changes }` (DINE bypass)
☐	FIREWALL	All egress traffic routed through inspection	A.8.22	`azurerm_route` default 0.0.0.0/0 → Firewall
☐	FIREWALL	FQDN allow-list for outbound traffic	A.8.23	`azurerm_firewall_policy_rule_collection_group`
☐	FIREWALL	Platform services (KMS, Azure AD) not silently dropped	A.5.30	`azurerm_route` KMS/AAD bypass
☐	FIREWALL	Firewall rule changes tracked in version control	A.8.32	Terraform state + Git history (no manual Portal edits)

> **Auditor note:** This checklist covers the technical network infrastructure controls these three modules implement. Full ISO 27001 certification requires organizational measures (risk assessment, ISMS documentation, incident response procedures) beyond what infrastructure code alone provides. This sheet is evidence for Annex A technical controls, not a substitute for a full Statement of Applicability.
